Responsibly sourced

Part of a certification scheme, which assures responsible social and environmental practice in forestry or plantation. Examples: FSC® -certified forest fibres used for napkins, tablecovers and paper cups.

Compostable

Resource efficient

Made from recycled or waste materials that show clear resource efficiency compared to standard alternatives.

Recyclable

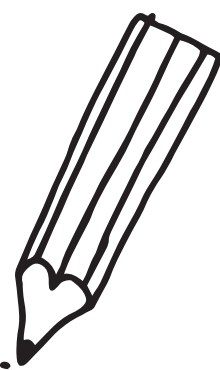

Means that the material from the product can be used to form new products. Recycling depends on the local infrastructure. Always consult a local waste handler.

Designed for a sustainable future

Sustainability is no longer a nice to have but a need to have. And with our wide range of unique, premium Bio Dunisoft® unicolour napkins we continue our work toward the greater purpose. Made from fossil-free, renewable materials they help lower your impact on the planet while still creating an excellent atmosphere. Stay sustainable without compromising on style, quality or design.

Meet the *creatives*

In 2024, four core values drive the trends we explore: comfort, wellness, nostalgia, and travel. Comfort becomes paramount as individuals seek solace and tranquility amidst the hustle and bustle of daily life. Wellness takes center stage as we prioritize self-care and holistic approaches to our physical and mental well-being. Nostalgia evokes cherished memories and offers a sense of familiarity in a fast-paced world. Lastly, travel captivates our imaginations, beckoning us to embrace new horizons and enriching experiences.

TRENDS

Soulful estate

Soulful Estate combines old-school craftsmanship with modern influences, blending tradition with a fresh twist. Consumers are embracing the charm of pre-loved items, like vintage-inspired pottery and glassware. Bust silhouettes and quirky styles add character, while stripes, leathers, and eyelet fabrics evoke comforting memories of grandma's house. These earthy tones, rich reds, and eclectic blues transform antique-inspired pieces into modern adaptations, offering a unique blend of nostalgia and novelty.

Soft tropics

Soft Tropics combines sleek modernism with travel-inspired elements, bringing artisanal specialties, regional crafts, and antique souvenirs into the home. This trend creates a tropical atmosphere that satisfies the desire for escapism and wanderlust while embracing the idea of "global citizenship." It transports you to lush destinations where you can unwind and immerse yourself in their rich histories. Natural materials like unbleached rattans, artisan ceramics, and washed linens dominate, creating an effortless jungle aesthetic.

Fresca

Fresca embraces joyful celebrations and empowers consumers to find wellness amidst uncertainty, embracing the earth's energy. Inspired by sun-soaked days and seaside lounging, it offers a new approach to wellness. Moving away from minimalism, consumers are drawn to the maximalist style. Bold geometric blocks, lobster illustrations, and vibrant blooms bring back chaotic prints, while seashells, curves, and playful fish add comfort with natural elements. From calming to intense, these unique pieces remind us to cherish the present while looking ahead.

CERTIFICATIONS THAT DRIVE SALES

The products in our collection carry a variety of environmental and quality certifications. Here you can find out what they mean.

The OK Compost label, from the certification body TUV Austria, indicates that the product is suitable for industrial composting and meets the stringent requirements of the European standard EN 13432.

We now offer napkins with the OK compost HOME label. You can compost these at home. For instance, by putting them on the compost heap in your garden. This is because they compost at lower temperatures than used for industrial composting.

The Forest Stewardship Council® (FSC) certification ensures the product is made of wood from forests managed in an environmentally appropriate, socially beneficial and economically viable manner.

The Nordic Swan Ecolabel identifies the best products on the market from an environmental point of view. For instance, it confirms our stearin candles consist of at least 90% renewable materials and minimise soot emissions.

The RAL Quality Mark is awarded by the European Quality Association for Candles. It guarantees the candle burns cleanly, contains no hazardous materials, retains its shape and is safe and reliable.
