Household catalogue

Machine made stemware and drinkware **portfolio** represents core position in the company's offer and assortment. **RONA** is company with **socially – responsible, sustainable** and **environmentally** friendly business practices.

Present & History

The glassworks

RONA has a strong export position, qualified personnel and the most modern technologies. The glassworks in Lednické Rovne is one of the world leaders in the processing of lead-free beverage glass known as crystalline.

The glassworks is trading with a wide range of customers from all over the world and provides them with activities related to the development, production and servicing of beverage glass for households, hotels and restaurants as well as for the airlines and shipping companies. Machine and handcrafted goblets and beverage glasses are covering the basic position in the company's product range.

96% of production is exported and is available in more than 80 countries worldwide. The yearly production of the company exceeds 60 million pieces.

RONA products and quality rank it among the world's leading manufacturers of the table top glassware.

History & Tradition

The glassworks was founded in 1892

129. years of tradition

The glassworks was founded in 1892 by the entrepreneur Jozef Schreiber as the last and the largest glassworks of the Viennas company Schreiber und Neffen, which had the most modern technical equipment for its time. The glassworks in Lednické Rovne is the most successful Slovak glassworks in history.

Defined by

1. Environmental friendly

The special RONA glass composition known as crystalline does not contain lead or any other pollutants or toxins. This makes it safe for your health.

2. Design and sound

RONA glass is fragile, with unambiguous sound, as brilliant as a diamond. You will discover its beauty at first sight and your lips will taste of the essence of the glass art.

3. Improved resistance

The products are specially strengthened in places where they are particularly vulnerable. Glass is more resistant to scratches and strong impacts.

4. Brilliance and clarity

Infinite transparency without milk coating is guaranteed by the use of a rare element of the highest quality erbium used by only a few world producers.

5. Dishwasher safe

The special and unique glass composition ensures 1000 cycles in the dishwashers for RONA glasses with long lasting brilliance.

Creative design

Elegance and technology

Pulled stem

In 2001 RONA introduced, as the first company in the world, technology of the so called "pulled stem" into the blow - blow process.

This process creates a monolithic product from the original two - piece process, and it significantly enhances its mechanical resistance and thus durability. RONA nowadays owns automatic technology processes which simulate handmade production and create products of high quality. In addition RONA has low tooling costs for pulled stem technology and large portfolio of ready molds.

Lead free glass

Special attention is focused on the composition of the glass batch. RONA produces own glassware in the quality of lead free - crystalline blanks.

Decorations

Pantograph etching

The 1st factory in continental Europe where the pantograph machines were installed – back in 1896. Technique suitable for traditional, namely lacy and floral, designs. Pantograph decorations are ideal for making the glassware look fancy.

Machine and hand cutting

Wide range of both machine and hand cutting capabilities. Combination of modern technologies using RONA's pulled stemware blanks along with the superior machine cutting facilities. The cuts can be either polished or grey cuts.

Painting and colored spraying

Handpainting of metallic rims and bands of varying widths as per your request. A form of liquid gold or platinum is used. Hand painting with luster colors on the bowls of the stemware or barware. Large color palette available to choose from.

Diamond engraved cutting

Suitable for rich patterns and it works well for modern designs too. The range of grey cuttings includes traditional and contemporary designs. This decoration adds a lot of perceived value without costing too much.

Screen printing and decals

Color screen print decorations, located on the foot or on the bowl of a stemmed glass or tumbler, are ideal for your private branded corporate gifts. Widely used for the brand application of various logos and company names. RONA can offer screen printing in a variety of colors.

NEW

E-commerce PACKAGING

What is the benefit?

RONA designed flexible, easy-to-pack solution that eliminates risk of product damage in transit and storage and ensure products arrive in perfect condition, every time. By switching to RONA e-commerce packaging, you avoid over-packaging which reduces weight, waste and ultimately it keeps shipping costs as low as possible. RONA e-commerce packaging will allow faster orders, optimise logistics and helping you ship in the most earth friendly, cost effective way. RONA e-commerce packaging is the best choice for your online business!
